

I am writing concerning the FCC's introduction of LPFM with regard to broadcasting of K-Love Radio. I have been a solid supporter of K-Love and an avid listener for many years here in Arizona. This station serves, not only as a great source of enjoyment throughout the day for thousands of listeners, but also a source of positive information concerning God's love and instruction for them. I am greatly concerned that this proposed change would seriously affect the quality of our reception of K-Love all over the country. Please do not allow this change to take place. Thank you.
